

PRASAD CDHP ANNUAL REPORT 2015

Dear Friends,

On behalf of the PRASAD Children's Dental Health Program and those we serve, thank you for your support.

In the United States tooth decay is still the single most common childhood disease nationwide, five times as common as asthma. Our mission is to contribute to children's well-being by improving their oral health.

This year PRASAD CDHP celebrated 17 years of providing dental care to children of low-income families in rural Sullivan and Ulster counties in New York. In 2015 alone, PRASAD CDHP offered dental health education to more than 4,700 children and the dental clinic received 885 visits and performed more than 2,000 dental procedures.

We appreciate your continued support, which makes it possible for us to give children happy, healthy smiles!

Sincerely,
The Board of Trustees and Program Administrator
